

Big

Modular Table System

Designer

De Vorm

A modular table system. Up to a length of 6 meters, the table is assembled according to clients' needs. Even the finishing of the table top can be chosen. Power outlets and USB/AV connection points can be easily integrated with the frame functioning as a cable duct.

DeVorm

Specifications

Standard frame colour
Powder coated steel, Black

Table top
Various possibilities

Ingredients

MDF, plywood, oak, ash or bamboo

Powder coated extruded aluminium

Powder coated steel legs

Blanc steel Hexagon Socket Screw

Blanc steel nut

PA glider

Modular

The Big is a modular table system. Not only the length and width are adjustable but also the material and the finishing of the tabletop are completely customizable.

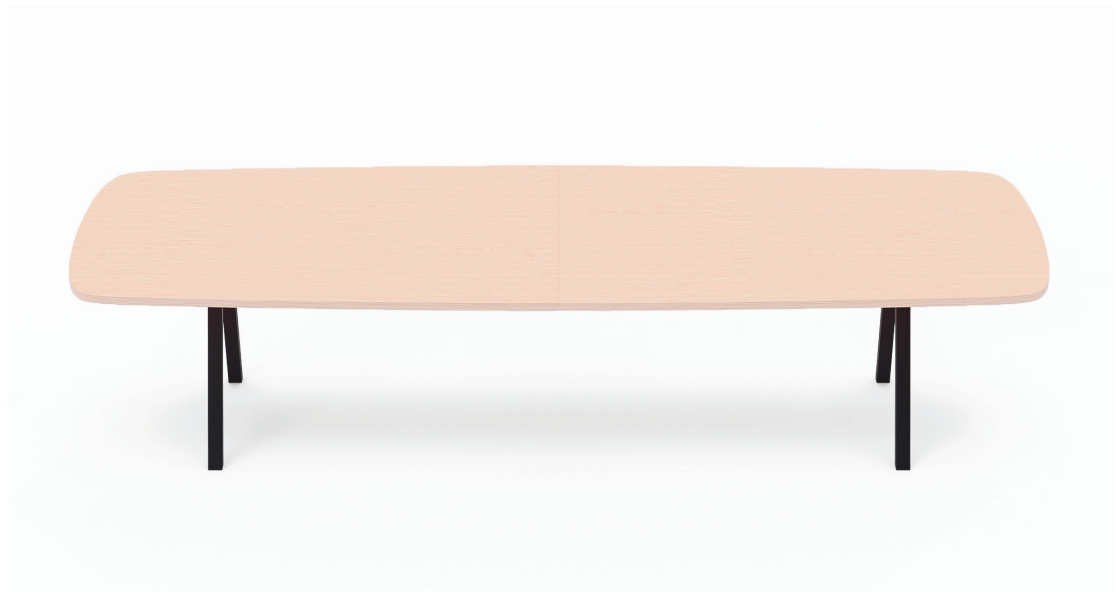

The possibility of the integration of power outlets and USB/AV connection points with the frame functioning as a cable duct makes the Big ideal for offices, meeting rooms and public spaces.

It is possible to choose a table top out of one piece.

Bespoke option

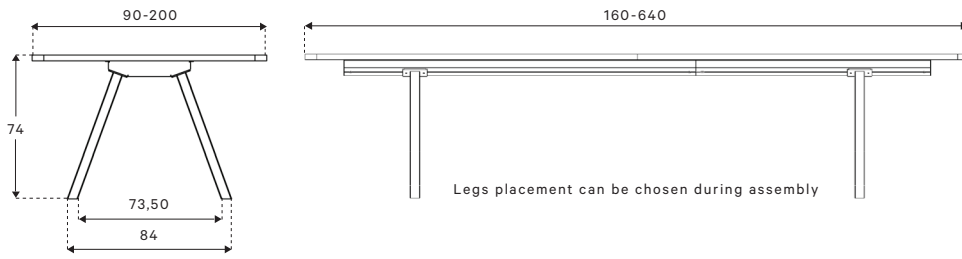

Customize the table top

MDF + HPL, veneer or desktop
Plywood + HPL, veneer or Desktop

Max. 6 meters on 4 Legs

Weight and package size depends on the table size.

Big 110

Max. 6 meters on 4 Legs

Weight and package size depends on the table size.

Modular

Up to 6 meter on 4 legs Many finishing options

Easy to integrate electrical points

DeVorm

We create interior products by today's standards.

De Vorm is established in a new era, we develop products by the standards of today. This means we produce efficiently, use the full lifecycle of products and eventually give them a new life.

Our emphasis lies on making a product that works, by setting a variety of conditions; it should be legible, accessible, but also environmental friendly and aesthetically perfectly in balance.

We like a product because of its functionality.

A good product makes life easier - it should be developed for helping us function better throughout the day. We firmly believe that the beauty of a design lies in the sum of functions that makes it a complete product.

We continuously raise the bar.

From the very first sketches we start combining and developing new techniques to find new possibilities to innovate. Our design process is infused with technical development; techniques result in aesthetic features and the other way round.
