

Florian

Designer

Laurens van Wieringen

Its playful lines combined with minimal design give it a sympathetic and playful appearance. The Florian series has been purchased by the Stedelijk Museum in Amsterdam for its collection.

Seat depth Florian Chair – 46 cm

Size Florian Chair – 47,4 x 73 x 44,6 cm; 0,15 m³

Weight Florian Chair – 7,96 kg

Florian Chair

Florian Bench

Architectural

Slim and sturdy

DeVorm

We create interior products by today's standards.

De Vorm is established in a new era, we develop products by the standards of today. This means we produce efficiently, use the full lifecycle of products and eventually give them a new life.

Our emphasis lies on making a product that works, by setting a variety of conditions; it should be legible, accessible, but also environmental friendly and aesthetically perfectly in balance.

We like a product because of its functionality.

A good product makes life easier - it should be developed for helping us function better throughout the day. We firmly believe that the beauty of a design lies in the sum of functions that makes it a complete product.

We continuously raise the bar.

From the very first sketches we start combining and developing new techniques to find new possibilities to innovate. Our design process is infused with technical development; techniques result in aesthetic features and the other way round.
