

Item of furniture or sculpture? Folly bench expresses both these spirits in its dynamic, flowing form, inspired by nature. Equally artistic and functional, it is made of rotational-moulded polyethylene, and comes in a brown colour reminiscent of weathering steel, which again is strongly tied to architecture and contemporary sculpture. Folly is resistant to all physical and environmental stresses, and features a cosy shape and an exciting aesthetic. It is suitable for use in the garden of a private house but also in a park or in a square,

for every situation and season, offering a characteristic feature with a natural sense of harmony for any space.

**Ron Arad**

Ron Arad's constant experimentation with the possibilities of materials such as steel, aluminium or polyamide and his radical re-conception of the form and structure of furniture has put him at the forefront of contemporary design and architecture. Alongside his limited edition studio work, Arad designs for many leading international companies and has also designed a number of Public Art pieces.
