

# HYG LOUNGE

No other word in the Danish language has become as internationally celebrated as hygge. A word so difficult to define, and yet so simple in practice. Hygge is all about feeling good – security, warmth and comfort all form part of its DNA, and it is precisely these qualities that provide the template for the Hyg lounge series. Hyg is an exclusive range, in which soft lines and encircling contours create a cozy and pleasant space.

Characterized by its ample silhouette, Hyg radiates a primary organic purity. Its voluminous form is offset by a narrow contour, which hones and refines its expression. High sides lightly shield off the room, while a broad seat makes it possible to assume a wide range of relaxed seating postures. The enveloping design can add a sense of security and privacy to a hectic environment, making the furniture eminently suitable for public spaces.
