### Comments

Deviating stitching	When opting for contrast stitching, this option applies to the entire item. If the inside and outside are selected with two different deviating stitching colours, this must be explicitly stated on the order. Deviating stitching is not possible on the decorative stitch Artisan, it is always the same colour of stitching as the outside.

Certifications	All sheet materials used in this model comply with the CARB2 requirement or are NAF certified
----------------	---

On request foam materials with additional flame retardants can be applied.
